TREE-DRAWN WATER

Asarasi (ah-sir-ah-see, Latin for maple) is harvested from maple trees, one of the purest water sources on earth. Farms collect the sap and remove the sugar for syrup; we capture the pristine, organic tree water left behind.

FEATURES & BENEFITS

Pure water from organic maple trees, sparkled and enhanced with organic extracts and 2 billion probiotic cultures for digestive health. 0 sugar, 0 calories, 0 sodium, and not kombucha or kefir.

OUR MISSION & IMPACT

A responsible, plant-sourced alternative to bottled water. With the planet running short of fresh water, we conserve groundwater with a fully renewable source, and every can brings new revenue to 132+ family farms.
